REDUCED PRICES.—WILLIAM CLEAVE, of Wilton-road, Pimlico Basin, begs to acquaint Builders and the Trade that he has now on hand, at his Manufactory the best of its kind ever established, a very large Assortment of Dry and Well-seasoned OAK AND DEAL PREPARED FLOORING BOARDS and MATCH BOARDING of Yellow and White Deals, planed to a parallel width all extra Tongued in to lymph thick, planed to a parallel width all extra Tongued in to lymph thick, planed to a parallel width and thickness, and at exceedingly Reduced Prices. Also, Timber, Deals, and Planks, Seantlings, Sash Bills, Mouldings prepared by Machinery, Lathes, &c.

Apply at W. CLEAVES Flooring Manufactory and Timber Yard, Wilton-road, Pimlico Basin, late C. MOORE and SON

A REDUCTION in the PRICE of FLOOR BOARDS.—ALFRED ROSLING begs to inform the Trade and Gentlemen generally, that he has REDUCED the PRICE, and keeps constantly in stock a large and very general assortment of Prepared Floor Boards and Matched Boarding, planed to a parallel breadth and thickness, and fit for immediate use; also a variety of Deals and Battens, which are finished with great accuracy and attention to quality of workmanship.—Southwark Bridge Wharf, Bankside, and Old Barge Wharf, Upper Ground-street, Blackfriars.

GREAT REDUCTION IN THE PRICE of FLOOR BOARDS AND MATCH BOARDING.—THOMAS ADAMS begs to inform Builders and the Trade generally, that he has REDUCED the PRICE of his Floor Boards and Matched Boarding, planed to a parallel breadth and thickness, and fit for immediate use, which are finished with great accuracy and attention to quality of workmanship.—Southwark Bridge Wharf, Bankside, and Old Barge Wharf, Upper Ground-street, Blackfriars.

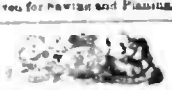
SIMS'S PATENT PLANING MACHINE.

SAW MILLS, GILLINGHAM-STREET, PIMLICO.

TIMBER of any size, **PLANK, DEALS,** and BATTENS, sawn in the most approved principle, Planed, Matched, and Grooved, by Mair's Patent Machinery. The Mills have all the advantages of navigation and water carriage, being connected with the Thames by the Grosvenor Canal. Goods fetched from the docks and carted home free of charge.

Address to HENRY BOETHAM, Saw Mills, Gillingham-street, Pimlico.

N.B. Estimates given for Sawing and Planing.



WOOD THOROUGHLY SEASONED in FOUR DAYS instead of YEARS, by DAVISON and SYMINGTON'S PATENTED PROCESS, at the Patent Dessicating Establishment, for Seasoning, Sawing, and Planing Timber, Yard-road, Deptford, adjoining the New Cross Station of the South Eastern Railway. The Mills have all the advantages of navigation and water carriage, being connected with the Thames by the Grosvenor Canal. Goods fetched from the docks and carted home free of charge.

Address to HENRY BOETHAM, Saw Mills, Gillingham-street, Pimlico.

N.B. Estimates given for Sawing and Planing.

WOOD THOROUGHLY SEASONED in FOUR DAYS instead of YEARS, by DAVISON and SYMINGTON'S PATENTED PROCESS, at the Patent Dessicating Establishment, for Seasoning, Sawing, and Planing Timber, Yard-road, Deptford, adjoining the New Cross Station of the South Eastern Railway. The new process of vegetable dessication, or removal of moisture, hardens the gums, prevents further shrinkage, and strengthens the fibre.—For scale of prices, and further particulars, apply to the Secretary, at the Establishment, or apply to

ANDREW JENNINGS, Secretary.

The Patent for sawing by machinery only, is REMOVED from Yard-road to 37, BLACKFRIARS-CHURCH-STREET, CITY.

Timber Merchants, are to WM. LANE, Ivarill-buildings, Mr. THOS. MILLIE, Richards-; Messrs. RAN-DOLPH, ELLIOT, and Co., Thames-; Messrs. CLIFFORD and BROWN, Hull.

JORDAN'S PATENT MACHINE CARVING and MOULDING WORKS for Wood and Stone, Belvedere-road, Lambeth, and 156, Strand.—TAYLOR, WILLIAMS, and JORDAN beg to call the attention of the Building Profession and Trade to the Establishment, and, at the same time, to thank them for their numerous patronage and friends for the many favours conferred on them, and which they have lately experienced, which, they assure them all, it shall be their constant endeavour to merit a continuance of; and, as an increasing share of the advantages are derived from the constant improvements in the machinery and tools, they are now enabled to reduce the production of the most intricate carving in Gothic and other Freestones, and in Coloured Marbles.

T. W. and J. particularly solicit the attention of Architects and Builders to the Machinery, the use of this machinery, a very large saving in the expense is effected, as every moulding, however intricate, is produced in a finished article in from one to two minutes, and obtained in cement, while their Carvings are executed in the same close composition with the best kinds of composition ornament.—For prices and references apply at the Office.

TESTIMONIAL FROM CHARLES BARRY, Esq.

Westminster, May 26th, 1848.

Gentlemen,—In reply to your letter requesting my opinion of your Patent Carving Machine, I have much pleasure in stating, from my experience of it for the last two years, in its application to the carving of the Capitals of the Houses of Peers, and Commons, at Westminster, that I am perfectly satisfied with the Machine, and with the manner in which it has been executed by you, and I have much pleasure in recommending it, and to undertake the carving of the remainder in stone, on such reasonable terms as you have proposed in your letter of the 24th instant.

I remain, Gentlemen, Her Majesty's Commissioners of Works and Public Buildings.

Messrs. Taylor, Williams, and Jordan.

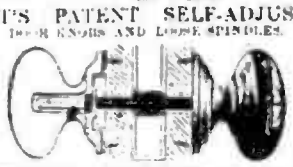
TO ARCHITECTS, CONTRACTORS, BUILDERS, AND OTHERS.

WE have pleasure in calling your attention to the ROLL-TURNED CUPBOARD TURN, the novelty and simplicity of which is being universally acknowledged. It possesses the following advantages of a stop-peg, a fast tongue, and reversible motion; any thickness of door can be used being made to suit the thickness of the door turned, and led to its utility, is quite as fashionable as any yet introduced.

WEBB and GREENWAY, Manufacturers and Wholesale Ironmongers, 74, York-street, Birmingham.

By Her Majesty's Royal Letters Patent.

PITT'S PATENT SELF-ADJUSTING DOOR KNOBS AND LOOSE SPINDLES.



HARDWARE MERCHANTS are requested to invite the attention of Architects, Builders, and others, to their Stock of Furniture, mounted for PITT'S PATENT SELF-ADJUSTING KNOBS. The knobs are stronger, more durable, and more elegant in form than those in ordinary use, the spindles, being loose, do not require the disagreeable screw. They are more readily applied to the door than any description of lock now in use, and as they adjust themselves to doors of different thicknesses, will be found universally adapted for the country or for export trade. They are made to suit every style of decoration in china, crystal, and other materials, from the costly to the cheapest description, with all the improvements, such as the patent self-pulls, levers, &c. May be obtained of all Ironmongers, one of the proprietors and sole manufacturers, HART and SON, Wholesale Ironmongers, 53, 54, and 55, Wych-street, Strand, London.

N.B. PITT'S PATENTED SPINDLE, being the only one that does not require a screw on the side of the knob or mounting, the use of any lock furnished without such side screw would be an infringement of the patent.

PAVING, 2s. 9d. PER SQUARE YARD, Basements, Foot-walks, Malt-houses, Corn Stores, Floors of Warehouses, and every description of Pavement laid down at the above low prices, and the work guaranteed.—Apply to JOHN PIL-KINGTON PULVERMACHER'S BITUMEN PAVEMENT OFFICE, 18, WHARF-ROAD, CITY-ROAD.—N.B. Country Agents and Railway Engineers and Contractors supplied with the best bitumen for covering bridges and arches.

ANSTONE STONE WHARF, STANGATE.—Mr. GRISSELL has the honour to inform Architects and Builders that he has made arrangements for the SUPPLY of the ANSTONE STONE for all building purposes, and which can now be seen at the above wharf by application to Mr. W. H. WARDLE, of whom every necessary information can be obtained.—August 3rd, 1848.

ANSTON STONE, used for Building the New Houses of Parliament.—W. WRIGHT and Co. beg to inform Architects, Engineers, Builders, and others, the Anston Stone can be supplied in any quantity on the shortest notice. This valuable stone, so celebrated for its durability, colour, and texture, is well known, having been selected in preference to all others, by the Commissioners of Woods and Forests, for building the New Houses of Parliament. It is very superior for Monuments, Tombs, &c. &c.

W. Wright and Co. have made arrangements to have a stock always on hand at Brune's Marble and Stone Wharf, Horsfall-basin, Maiden-lane, King's-cross.—Any further information can be obtained on application to W. WRIGHT and Co., Anston, near Sheffield; or to T. BLAKE, their Sole Agent in London, 2, Burton-crescent.

LUARD, BEEDHAM, and CO., extensive Proprietors of CAEN STONE QUARRIES, Allemagne, Calvados Department, beg to submit inspection of their Caen Stone for external and internal works. They continue their importations of the first quality, carefully selected at the quarries.

L., B. and Co. have on hand a large stock of the best-quarried stone, at their Depôt, Caen Sufferance Wharf, Rotherhithe, where samples and information may be obtained.—Shipments made direct from Caen to any part of the United Kingdom.

AUBIGNY STONE QUARRIES.—LUARD, BEEDHAM, and Co. beg to inform the Architectural and Building Profession generally, they are importing the above stone from Aubigny, near Falaise, Normandy; and from its general adoption where known, are assured of its great utility.

Aubigny resembles Portland in colour and texture, but free from shell, flint, and other obstructions in working. Its durability may be known from its appropriation to lighthouses, dock and quay walling, and the Royal Chateau, Normandy.

L. B. and Co. have a large and seasoned stock at their Depôt, Caen Sufferance Wharf, Rotherhithe, near the Lavender Dock Pier.—Orders executed with dispatch to any part of the United Kingdom.

CAEN STONE.—Original Sufferance Depôt, Norway Wharf, Greenwich.—W. TUCKWELL, Caen Stone Quarry Proprietor and Importer, begs to invite the attention of Architects, Surveyors, Builders, and others to the Stock of DRY SEASONED CAEN STONE on his Wharf, comprising 2,000 feet cube, which has been selected with judicious care, and is fit for immediate use. Shipments made to any part direct from his quarries at Caen.

N.B. Orders received at the wharf as above; also at the offices of Mr. R. A. WITHALL, Surveyor, 80, Cheapside, where further information and samples may be obtained.

STIRLING'S BELVEDERE SLATE WORKS, Belvedere-road, Lambeth.—A reduced list of prices of the best WELCH SLATE SLABS, planed both faces, will be sent on application (post paid) being made, and inclosing a postage stamp. The prices are under those advertised for inferior slates.

SAMUEL CUNDY, Mason and Builder, PIMLICO MARBLE and STONE WORKS, Belgrave Wharf, Pimlico, begs to inform ARCHITECTS and the PUBLIC that he has availed himself of improvements in his MACHINERY, by means of which he is enabled to produce GOTHIC WINDOWS, MOULDINGS, PANNELS, &c. &c., at a very cheap rate, out of a superior stone from the west of England, as durable as any soft stone, and particularly sound.

S. C. has an economical method of dressing the above stone over, which produces, by the action of the atmosphere, a surface of crystalline hardness, and improves the colour.

FONTS from 2l. upwards. Specimens on view of the various styles.

First-rate ARTISTS retained for SCULPTURE and CARVED Work.

Vein Marble Chimney-pieces, of the best quality of material and workmanship, by improved machinery	40s.
Stone ditto, from	8s.

A variety on view in stock.

MEMORIAL CROSSES, MONUMENTS, TOMBS, HEAD-STONES, &c., in great variety of design.

RESTORATION of CHURCHES.—SAMUEL CUNDY having had much practice in this branch, is desirous of Estimating for Restoration.

CLERKS of WORKS have their particular attention called to the above establishment. Casts of Arms, Decorated Pannels, and other enriched works, promptly executed.

Every description of Stone or Granite work prepared, ready for fixing.—Delivered at the various Railways, and carefully packed in trucks.—Pimlico Marble and Stone Works, Belgrave Wharf, Pimlico.

ENAMELLED SLATE.—CAUTION!—Some discarded workmen of Mr. Magnus, having pirated his invention of marbling slate, and palmed upon the public trashy imitations, which unfortunately are frequently confounded with MAGNUS'S ENAMELLED SLATE, until a few months' wear has shown them in their true light, Mr. MAGNUS, who has expended a fortune in perfecting and introducing his enamelled slate articles, which articles have won for him the patronage of the highest personages in the realm, the appreciation and support of the first architects, and the medal of the Royal Society of Arts, deems it incumbent upon him for his own protection, and that of the public, and for the just fame of his invention, to caution the free-thinking against these imitations. The public are, therefore, requested to observe that the address is MAGNUS, PIMLICO SLATE WORKS, and in future all articles of his manufacture will be so marked.

Patronised by her Majesty Prince Albert, the Duke of Wellington, the Duchess of Sutherland, the Duchess of Grafton, the Marquis of Westminster, the Marquis of Londonderry, the Earl of Denbigh, the Earl of Dartmouth, the Earl of Hardinge, the Earl of Waldegrave, the Countess Wilton, Viscount Combermere, Lord Robert Grosvenor, the Bishop of London, the Bishop of Bath and Wells, the Hon. Col. Douglas Pennant, Mr. Ambrose Smith, Col. Challoner, Mr. J. Eadbope, Sir Francis Lawley, Sir Ralph Howard, the Hon. Capt. Duncombe, Sir W. Gordon, the Hon. C. Shaw Lefevre, and numerous others of the nobility and gentry of this and other countries; by the most eminent architects and surveyors, the engineers and directors of the principal lines of railway, the Board of Public Works, and by the public generally.

SLATE SLABS.—Mr. MAGNUS having machinery in Wales capable of sawing and planing some thousands of tons annually, is enabled to supply the public at a much lower rate than any other house not possessing the same facilities. Parties ordering large quantities will be allowed a considerable discount off the recently reduced price list.—Address, MAGNUS, Pimlico Slate Works.

TERRA-COTTA, or VITRIFIED STONE WORKS, King Edward-street, Westminster-road, London.—W. H. BLANCHARD, from late Coade's Original Works, Belvedere-road, Lambeth, begs to inform the Nobility, Gentry, Architects, and Builders, that he has re-established the manufacture of that invaluable material, which has been successfully adopted by our eminent Architects and others, in the adornment of our noblest buildings, nearly 100 years has proved the imperishable nature of the material, the specimens of those times now exhibited all their primitive sharpness.

Groups, statues, friezes, capitals, panelling, pinnacles, finials, terminals, Tudor, and other chimney shafts, balustrading, fountains, foots, tazzas, vases, coats of arms, devices, and every description of architectural ornament, at prices in many instances nearly half the cost of stone.

Specimens of the material to be seen at the Offices of "The Builder," 2, York-street, Covent Garden, and at the Works.

ABERDEEN GRANITE, ROCKHILL PAVING, &c.—ALEXANDER NICHOLSON, 18, Little Tower-street, London.—Agent for Penn Rockhill Quarries: A. and W. Nicol, Granite Merchants, Aberdeen; the Aberdeen Lime Company, Granite Merchants, Aberdeen; Nelson's Polished Granite Works, Aberdeen; the Heron Granite Quarries, &c. &c.

YORK STONE.—Buy your York Paving Slabs and Landings, your Bramley Fall, Portland, Park, Spring, and Harehill Stock Stones, at the VICTORIA STONE WHARF, ISLE OF DOGS, opposite the Greenwich Hospital.

THE CHEAPEST WHARF IN LONDON FOR CASH.

Stone delivered to any wharf in the river in large or small quantities.

ATKINSON'S CEMENT.—WILLIAM WOOD, Jun., Manufacturer of Roman, Portland, and Bath Cement, Blue Lias Lime Works, CHURCH STREET, ROTHERHITHE, Sole Consignee for Atkinson's Cement.—Cement Chimney-pots of every pattern.

ROMAN CEMENT, made according to the specification of Parker's Patent, may be had genuine of J. M. BLASHFIELD late Wyatt, Parker, and Co., Waterloo Dock Wharf, Commercial-road, Lambeth, S.E.; Irongate Wharf, Paddington, and at the Manufactory, Mill Wall, Poplar. Also Plaster, Mastic, Tarras Bricks, Tiles, &c.

PARIAN CEMENT, for internal Stucco, instead of PLASTER OF PARIS, may be painted and papered within twenty hours of its application on the bare walls; and rooms may be rendered habitable by its use before the materials commonly adopted would begin to dry. It is worked without the slightest difficulty. A finer quality is also prepared for ornamental plastering, for enamelled painting, &c. &c. Specimens of which may be seen at the Manufactory of the Patentees, CHAS. FRANCIS and SONS, Cement Works, Nine Elms, London.

KEENE'S PATENT MARBLE CEMENT forms an exceedingly hard and indestructible Stucco, which may either be prepared for paint, or finished in imitation of stone, by the addition of Portland of other stone dust.

It is a cheap and efficient substitute in place of wood for skirting, architraves, and other mouldings, in its application for which purpose it checks the progress of Fire and the attacks of Vermin.

Patentees and sole Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster, and Steel-street, Liverpool.

PORTLAND CEMENT.—J. B. WHITE and SONS, request reference to Nos. 24 and 25, pages 25 and 337, of "The Builder," for accounts of experiments on the strength of Portland Cements.—These trials show that for the practical purposes of building, the cementing power of Portland Cement exceeds that of Roman Cement in the proportion of four to one; thus marking it as the most fit material for turning the brick arches of Railway bridges and other works of a critical nature, while its firm adhesion to most sorts of stone, as well as bricks, combined with its eminently hydraulic properties, adapt it for such purposes as the building of sea and wharf walls, and the lining of reservoirs, cisterns, baths, &c. Manufacturers, J. B. WHITE and SONS, Millbank-street, Westminster.

PORTLAND CEMENT, solely MANUFACTURED by WILLIAM ASPDIN, Son of the Patentee, ROBINS, ASPDIN, and Co., Yard, see reference to No. 25, page 491; and also Nos. 24 and 25, pages 349 and 351, of "The Builder," for accounts of EXPERIMENTS on the strength of Portland Cements, whereby the great superiority of their Cement is manifest. This Cement has been proved for upwards of twenty years in the Thames Tunnel to resist the action of water; it is stronger in its cementitious qualities, harder, and more durable than any other description of Cement; it does not vegetate, crumble, or turn green; nor is it affected by any atmospheric influence whatever the climate, resisting alike the action of frost and heat. It is manufactured to set in from five to sixty minutes. For all purposes that Cement is applicable the Proprietors challenge competition.—Orders received by Messrs. ROBINS, ASPDIN, and Company, at their Manufactory, Northfleet, Kent, and their Wharf, Great Scotland-yard, Whitehall; also by their Agent at the Depôt, 1, Back Goree, Liverpool.

JOHNS and CO.'S PATENT STUCCO CEMENT and PAINT.—The attention of Architects, Builders, Plasterers, Painters, Merchants, and the Public generally is solicited to the many advantages attached to these celebrated Materials, which, for their appearance, durability, imperviousness, utter resistance to frosts or heat, and general economy, distinguish them from all other cements and paints, and fully justify the confidence reposed in them, as shown by the numerous testimonials received from public bodies and private individuals of the first importance.—Prospectuses and particulars may be obtained from the sole agent, PHILIP HARE, at the Warehouse, 22, Steel-yard, Upper Thames-street.

MARTIN'S PATENT FIRE-PROOF and ORNAMENTAL CEMENT.—REDUCTION of PRICE.—The Patentees beg to inform their Friends and the Public that they have made arrangements which enable them to offer this invaluable cement at a considerably reduced price. It has now been before the public so many years, and has obtained so high a standing in the estimation of all who have used it, that it is unnecessary to comment on its merits. The Patentees, however, feel called upon to observe, that by its use—from the greater amount of surface which a given quantity will cover, and the small amount of labour required in working it, a saving of 25 to 30 per cent. is effected as compared with other cements for internal use. Specimens showing its beauty, hardness, and applicability to all plain and ornamental purposes, may be seen; and the Cement in any quantity obtained of the Patentees, Messrs. STEVENS and SON, at their Plaster and Cement Works, 136, Drury-lane, London.

TO THE BUILDING PUBLIC.

FIRST-RATE ORNAMENTS in PORTLAND, ROMAN and other CEMENTS, and PLASTER of PARIS, at reasonable prices, consisting of Vases, Balustera, Capitals, perforated Panellings, Cantilevers, Brackets, Trusses, Wreaths, Scrolls, Masques, Heads, Figures, Friezes, Gothic and other Chimney-Shafts, Sculls, Red-Sculls, Paterae, &c. &c., 36-inch Centre, Flowers fixed complete, 24s. each, smaller in proportion. An assortment of Shop-Front Frizes always ready for fixing.—HERBERT and SON, Modellers, &c., 43, Parker-st., Drury-lane.

LIGHTERAGE.—To Contractors, Builders, Stone, Timber, and Slate Merchants, or others requiring Lighterage.—CHARLES STRUTTON, Lighterman and Timber Master, having a large number of craft of all sizes, is ready to undertake large or small CONTRACTS at prices particularly advantageous to his employers.—34, Commercial-road, Lambeth; near Waterloo bridge; and Trinity-street, Rotherhithe (near the Commercial Docks).—BARGES LET ON HIRE.

PATENT ALKALI COMPANY'S IRON PAINT.—This paint is the product of a patent process, and possesses peculiar and valuable properties not otherwise attainable. Its colour, as at present produced, is a rich purple brown. It is perfectly free from the deleterious qualities of white lead. It surpasses all other paints ever yet discovered in point of durability and economy. Two coats of this paint are more than equal to three of any other description. From its chemical composition it is preeminently adapted for covering iron, also wood and stuccoed or brick buildings. The process by which the base of this paint is produced makes it impossible that any change should take place in its composition from atmospheric influences. Its identity with iron secures it from galvanic action, so fatal to the durability of lead and other paints on iron work. It has been exposed on shipping to the action of sea water, and of the sulphuretted hydrogen so prevalent in sea ports and tidal harbours, for more than three years, without change. Its cheapness and strength render it peculiarly suitable for iron bridges, roofs, and railings, farm-buildings, and shipping. Price by the ton 22l. delivered in London or Liverpool, exclusive of package. Agents:—Messrs. EVANS, BROTHERS, London; Messrs. MATTHEWS and HOWARD, Bristol; Messrs. MILLER and McLANDERS, Glasgow; Messrs. EVANS and HOPKINSON, Exeter; Messrs. CLARKE and PILL, Yarmouth, Norfolk; Mr. D. MANDEMAN, Glasgow; Mr. G. SANDEMAN, Dundee; Mr. R. NEWBY, Bradford, Yorkshire; Mr. R. S. PARR, Edinburgh; Mr. W. BAILEY, Wolverhampton; Mr. JAMES VIVY, Newcastle-on-Tyne; Mr. ROBERT OXLAND, Plymouth. Orders may also be addressed to the offices of the Company, 30, Fenchurch-street, London.—JOHN A. WEST, Secretary.
